

In Science we are learning about weather. We will be discussing / observing seasonal weather patterns in relation to rainfall, wind direction, temperature and sunlight. We will learn about symbols on weather maps.

In Geography we will be learning about different types of maps, compass directions and map symbols (keys). We will be devising our own simple maps, looking at aerial maps / photographs and giving directions using appropriate geographical vocabulary.

In Art we are learning about portraits and portrait artists including Andy Warhol and Kehinde Wiley. We will be creating art inspired by these artists using different techniques.

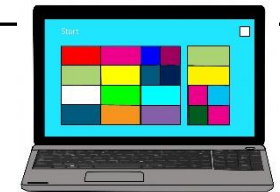

In P.E we are learning how to line dance following the children's interest whilst learning about country music.

Autumn 2 Feathered Friends

In Computing, we are learning about algorithms and the importance of being specific when giving instructions. We will also learn how to 'debug' instructions which have errors.

In PSHE our topic is relationships. We will be learning how our words & actions can affect how people feel, how to ask for / give / not give permission for physical contact (NSPCC pants rule) and why name-calling & teasing is unacceptable.

In RE we will be learning about Islam and what is important to Muslims. We will also be learning about the Christmas story and the messages it contains for Christians.

In Music we will be developing our understanding of the different elements of music (dynamics, pitch, tempo, rhythm, beat). We will be using non-tuned instruments to demonstrate our understanding of these terms.
