

In Science, we are learning about animals; grouping mammals, reptiles, amphibians, birds and fish. We will also be learning about what different animals eat, their needs for survival and how different habitats provide for these needs.

In Geography we will be learning to identify and name the countries of the UK and the surrounding seas, naming the capital cities of each country in the UK, using geographical language to describe and compare physical features of areas of the UK.

In Art we are learning about portraits and portrait artists including Picasso and Van Gogh. We will be creating art inspired by these artists using different techniques.

In P.E, we are developing skills such as throwing, catching and aiming. We are then using these skills to help us invent new games.

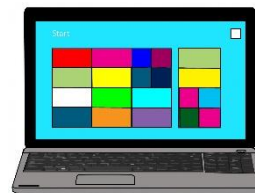

Autumn 1 Feathered Friends

In PSHE our topic is marvellous me where we will be learning about keeping our mind and bodies healthy, celebrating differences and recognising different feelings and how to manage them.

In Computing, we are learning how to use either a laptop or tablet independently, including logging on and off. We will also be learning how to stay safe when we are online.

In Music we are learning to listen with increasing concentration and understanding to a range of pieces identifying the instruments being played and discussing the pitch and tempo of each piece.
