# How does Kapow Primary help our school to meet the statutory guidance for RSE & PSHE?

Our scheme of work fulfils the statutory requirements for Relationships and Health Education set out by the Department for Education. It also fulfils the National Curriculum requirement to teach PSHE ('All schools should make provision for personal, social, health and economic education') and goes beyond the statutory requirements by referring to the PSHE Association Programme of Study (recommended by the Department for Education.)

When this RSE & PSHE scheme of work is taught in conjunction with our Computing scheme, it also covers the government's **Education for a Connected World -2020 edition** framework (see our [Education for a Connected World framework mapping](#)).

# How is the RSE & PSHE scheme of work organised?

# Key areas

We have categorised our lessons into the five key areas below, which we return to in each year group, making pupil's prior and future learning clear and shows how what you are teaching fits into their wider learning journey. Year 6 also have a further key area: Identity.

## Family and relationships

Learning how to: form respectful relationships with others, deal with conflict and bullying and the importance of challenging stereotypes.

## Health and wellbeing

Learning strategies for looking after their mental and physical health, including: healthy eating, relaxation techniques, sun safety, immunisation facts and the benefits of sleep.

## Safety and the changing body

Learning: how to administer first aid in a variety of situations and about safety around medicines, online and road safety and the changes which occur during puberty,

## Citizenship

Learning about: human rights and the rights of the child, democracy, diversity and community and protecting the environment.

## Economic wellbeing

Learning how to make decisions when it comes to spending, budgeting and saving money and exploring different career choices.

Year 6 only:

## Identity

Considering what makes us who we are whilst learning about body image.

# A spiral curriculum

Kapow Primary's RSE and PSHE scheme of work has been designed as a spiral curriculum with the following key principles in mind:

- ✓ **Cyclical:** Pupils revisit the five key areas throughout KS1 and KS2.
- ✓ **Increasing depth:** Each time a key area is revisited, it is covered with greater depth and increasing maturity.
- ✓ **Prior knowledge:** Upon returning to each key area, prior knowledge is utilised so pupils can build on previous foundations, rather than starting again.

## Is there any flexibility in the Kapow Primary PSHE & RSE scheme?

Our RSE & PSHE scheme of work is organised into units.

Within each most units, lessons should be taught in order as they build upon one another.

Across a single year group, units themselves do not need to be taught in the suggested order, apart from the Introductory lessons which are to be taught at the beginning of the year and the Transition lessons at the end of the year.

The flexibility in the order the units can be taught allows teachers to adapt the planning to suit their class and to cover particular units based on need at any moment in time.

# What about sex education?

Sex education is not compulsory in primary schools, beyond what is laid out in the National Curriculum for Science:

- **Year 1:** Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.
- **Year 2:** Notice that animals, including humans, have offspring which grow into adults
- **Year 5:** Describe the life process of reproduction in some plants and animals; describe the changes as humans develop to old age [They should learn about the changes experienced in puberty.]

## The RSE statutory guidance states that:

*Where a maintained primary school chooses to teach aspects of sex education (which go beyond the national curriculum for science), the school must set this out in their policy and all schools should consult with parents on what is to be covered. Primary schools that choose to teach sex education must allow parents a right to withdraw their children. Unlike sex education in RSE at secondary, in primary schools, head teachers must comply with a parent's wish to withdraw their child from sex education beyond the national curriculum for science.*

The Kapow Primary scheme of work includes **two** Year 6 lessons which parents have the opportunity to withdraw their children from all/part of the lesson: *Safety and the changing body*: [Lesson 5: Conception](#) and [Lesson 6: Pregnancy and birth](#).

We suggest that you consult with parents about the content of these lessons prior to teaching them, to provide them time to consider the content and to withdraw their child if they so wish.

## Short of curriculum time?

At Kapow Primary, we understand that curriculum time is always tight in primary schools.

We have created a Condensed curriculum version of our Long term plan to help those schools who want to ensure coverage of the statutory guidance, without dedicating a lesson a week to RSE & PSHE.

Our Condensed curriculum long-term plan abstracts units which cover key skills and knowledge in 20 lessons.

The selected lessons ensure that there is coverage of our five key areas of RSE & PSHE, with a slightly greater emphasis on the areas: Family and relationships, Health and wellbeing and Safety and the changing body as these are the areas where statutory guidance is covered.

This version of our Long term plan could be used if you are teaching RSE & PSHE in a two-week, half termly cycle or are block teaching foundation subjects. It could also be used to relieve pressure on teachers and pupils in terms of the amount of curriculum content.

# RSE & PSHE in EYFS: Reception

Personal, social and emotional development is one of the three Prime Areas in the [Statutory framework for the early years foundation stage](#).

The prime areas, **Communication and language**, **Physical development** and **Personal, social and emotional development**, lay the foundations for children to achieve in all areas of learning and life.

The early learning goals (ELG) below summarise the knowledge, skills and understanding that all young children should have gained by the end of the reception year in the Personal, social and emotional development prime area and are referenced in our Kapow Primary RSE & PSHE lesson plans, along with the relevant non-statutory [Development Matters](#) guidance. We have organised our EYFS: Reception content under the most relevant early learning goal, however please be aware that these areas are interrelated.

EYFS: Reception

**Self-regulation: My feelings**

Learning to explore and understand their feelings, identify when they may be feeling something, and begin learning how to communicate and cope with their feelings and emotions.

**Building relationships: Special relationships**

Exploring why families and special people are valuable, understanding why it is important to share and developing strategies to help with this, seeing themselves as valuable individuals and exploring diversity by recognising similarities and differences.

**Managing self: Taking on challenges**

Considering why we have rules and the importance of persistence and perseverance in the face of challenges, learning how to communicate effectively with others, practicing 'grounding' coping strategies.

**Self-regulation: Listening and following instructions**

Listening to stories to practise their comprehension skills, playing games which require them to listen carefully to instructions to succeed, considering how rumours can spread quickly and change as they do so.

**Building relationships: My family and friends**

Exploring cultural festivals that are important to individuals, reinforcing the importance of sharing and turn taking through role-play, considering the ingredients for a good friend, exploring how kind words make others feel good, recognising the value in working together as a team.

**Managing self: My wellbeing**

Learning why exercise is important for our physical and mental health, considering the effect of different types of exercise on the body, discussing some of the ways in which we can take care of ourselves, learning how to travel safely as a pedestrian, considering the importance of making balanced food choices.
