Dear parents and carers,

At Windlesham Village Infant School, we sometimes take photographs or digital video of pupils. We use these photos in the school's prospectus, on the school & trust websites and on displays around school. Videos are sometimes taken of school productions or events and to support pupil learning. Only first names of children will now be used against any photos or images.

We would like your consent to take photos and digital video of your child, and use them in the ways described above. If you're not happy for us to do this, that's no problem – we will accommodate your preferences.

Please check the relevant boxes below to give your consent by clicking on them and completing name details at the bottom of the form. Completed forms can be emailed or returned as a paper copy to the school office.
